

IPPA WORLD CONGRESS ON POSITIVE PSYCHOLOGY

20-23 JULY 2023 • VANCOUVER, CANADA

The IPPA World Congress on Positive Psychology: A Must-Attend Event for Clinical Psychologists, Psychotherapist, Clinical Counsellors & Social Workers

Are you a clinical psychologist, psychotherapist, clinical counsellor or social worker who knows that wellbeing is not just the absence of illness and want to learn more about the research, theory and practice of psychological well-being for your patients, yourself and your colleagues?

Positive psychology in the clinical context, in addition to treating and mitigating symptomatic stress, explicitly building the wellbeing of clients. The IPPA World Congress is the largest global gathering of researchers and practitioners where clinicians and mental health professionals from a variety of backgrounds can learn skills of integrating specific wellbeing interventions to expand their therapeutic repertoire and help their clients not only become less sad, depressed, anxious or angry but also genuinely help them to experience joy, fulfillment, satisfaction, relational connection and a sense of meaning and purpose.

CLIENT WELLBEING

- Learn how specific positive psychology concepts such as character strengths, meaning, purpose and flow, can be incorporated systematically to enhance client wellbeing

PRACTITIONER WELLBEING

- Learn how positive psychology concepts, skills and strategies can make one's practice more integrated, cohesive, and more fulfilling for practitioners.
